

PATIENT SERVICE HISTORY CHECK TOOL

The Service History Check tool is now available on the 6CPA Registration and Claiming Portal, and allows registered pharmacists to check whether a patient who has been identified as likely to benefit from a 6CPA-funded medication management service meets the eligibility criteria, in relation to previously claimed services.

The Service History Check is not intended to take the place of a real-time conversation with the patient and should be used as a guide only. Where a Medicare number flags for a prior service, it may be due to another service being completed on the same Medicare card, for example a spouse.

To use this tool, simply access the 6CPA Portal, click on the Service History tab and complete the required information.
